

TRANSFER / LOAD-ADJUST SERVICES

Hulcher Services is the industry leader for load transfer / adjustment services, serving the railroads, intermodals and general industry. Our services include:

Transfers - Hulcher transfers grain, fertilizers, chemicals, paper, lumber, steel, pipe, finished goods, auto parts and more. We are expert at moving materials from railcar to railcar or rail to truck while maintaining product integrity.

Adjustment - We follow AAR guidelines to ensure that every load is adjusted and secured to minimize hazards.

Clean Up - We can deploy at any time day or night for recovery operations following a derailment, bin collapse or other spill; our crews can be on the road one hour after your call. We can sort or segregate materials, recondition product, and do site restoration, remediation and clean up.

Tie Down - Hulcher loads out and ties down various materials and equipment including vehicles, pipe, steel, wood, roofing materials and paper, in accordance with AAR Intermodal Loading Criteria.

Our Resources - Hulcher is bonded and insured in all 50 states. Our crews have safety certifications from all Class 1 railroads and years of experience working in railroad and industrial environments.

Hulcher has 38 locations and 250+ pieces of heavy Caterpillar® equipment around the U.S., Canada and Mexico. Our transfer equipment includes pneumatic and belt conveyors, forklifts, excavators, grapple trucks, dump trucks, cranes, vacuum trucks, and telehandlers. We are close by, with the right equipment, when you need us.

Hulcher combines 30 years of expertise in transfer and adjustment work with one of the most extensive networks of people and equipment in North America. For more information about our services, call our 24/7/365 Customer Service Center at 800-637-5471.
