

Hulcher Services Fuel Surcharge Program

(Effective October 1, 2005)

Hulcher Services fuel surcharge program is based on the Department of Energy (DOE) On-Highway Diesel Fuel Price (US Average). The fuel surcharge program will apply as follows.

- Fuel surcharges will be adjusted on a monthly basis.
- The basis for the surcharge will be determined by the U.S. Average price of DOE On-Highway Diesel Fuel for a calendar month, as reported weekly on the U.S. Department of Energy Web site (www.eia.doe.gov)
- In the event the average monthly price of Retail On-Highway Diesel Fuel equals or exceeds \$1.75 per gallon, a surcharge beginning at 1.5% will apply to the billed rate for all equipment.
- For every five cent increase above \$1.75 per gallon, the surcharge applied will increase by 0.5%. (See threshold schedule for more details.)
- When the DOE price drops below \$1.75 per gallon, no surcharge will apply.
- The surcharge will be applied to equipment charges beginning with the second month following the month on which the DOE average price calculation is based. (Example: the average reported DOE price for the month of July 2007 would determine the fuel surcharge applied throughout the month of September 2007.)
